## All Windows-Based Webcams Can Now be Viewed on Cell Phones - iPhone,...

PRWeb  
 March 20, 2009

- mobiDEOS, a leader in providing mobile access to video surveillance and remote video camera monitoring, has announced that MobileCamViewer is now compatible with all Microsoft compliant Windows-based USB or built in webcams.

Original PRWeb article: [All Windows-Based Webcams Can Now be Viewed on Cell Phones - iPhone,...](#)

Consumers can now turn their cell phone and their webcam into a surveillance system for their home at a fraction of the cost--both in dollars and in time--of installing a traditional surveillance system. Downloading MobileCamViewer is fast and simple--it takes just three minutes to download onto your cell phone and it's ready to use

- No need to configure router
  - No need to open any ports
  - No need for a static IP
  - No need for DDNS services
- Watch your child or pet while you're away
  - Multiple users can view the camera concurrently
  - Automatically reconnects in case of network or power failure
- High ROI, save time and money
  - Helps to keep environment green
- Reliable - Carrier-class operations - the users can count on
  - Passed on major carriers such as AT&T, Sprint/Nextel, Verizon Wireless, Telstra and Orange

By making MobileCamViewer compatible with webcams, mobiDEOS offers the public an affordable product and service that allows its customers to use the equipment that they probably already own.

With webcams averaging about \$20 these days and the Basic Version of MobileCamViewer (\$4.99 per month) it is possible for customers to have a surveillance system in their homes for an initial cost of around \$25.

MobileCamViewer supports over 500 handsets including but not limited to BlackBerry, iPhone, Motorola, Nokia, Palm, LG, Sony-Ericsson, Samsung and more.

MobileCamViewer has been on the market for over two years, major carrier's certification passed and works on wireless networks from carriers across the globe. Complete list at: <http://www.mobileipcamviewer.com/distributors.html>
