View and Control Webcams, IP Cameras, DVR/NVRs on iPhone and iPod touch

mobiDEOS, a leader in providing mobile access to video surveillance and remote webcam or security camera monitoring, has announced that its MobileCamViewer is now compatible with the Apple iPhone and iPod touch and can be purchased through App Store. Now iPhone and iPod touch users can view and control their webcams, IP cameras, DVRs, NVRs with a touch of a button.

Sunnyvale, CA. 06/05/2009 — mobiDEOS, a leader in providing mobile access to video surveillance and remote video camera monitoring, has announced that its MobileCamViewer is now compatible with the Apple iPhone and iPod touch.

Users can now purchase the MobileCamViewer on the iPhone App Store and have the application up and running in about two minutes. Visit the App Store to download:

<http://itunes.apple.com/WebObjects/MZStore.woa/wa/viewSoftware?id=306080705&mt=8>

When used with the iPhone or iPod touch, MobileCamViewer will operate on Apple's cellular and WiFi networks, which will ensure that users have fast and reliable access to their video. Setting up MobileCamViewer is very easy and will take less than 5 minutes. MobileCamViewer offers

- High ROI, save time and money
- Helps to keep environment green
- Reliable - Carrier-class operations - the users can count on

The BASIC, STANDARD, and ENTERPRISE versions of MobileCamViewer are all available for purchase at the App Store.

- o BASIC - Ideal for use in home; Supports two Webcams or IP cameras directly connected to MobileCamViewer; Multiple users can simultaneously view video from their mobile devices
 - No need to configure router
 - No need to open any ports
 - No need for a static IP
 - No need for DDNS services
 - Automatically reconnects in case of network or power failure
- o STANDARD - Ideal for use in small business and home; Supports five Webcams or IP cameras directly connected to MobileCamViewer; Multiple users can simultaneously view video from their mobile device.
- o ENTERPRISE - Ideal for use in small businesses, large enterprises, schools, and government agencies; Supports a total of twenty-five cameras; Pan, Tilt, and Zoom capabilities (PTZ); Supports DVR, NVR and more

MobileCamViewer seamlessly connects with ALL Microsoft compatible webcams, popular IP Cameras and DVR/NVRs such as JVC, Panasonic, Axis, Dedicated Micros, Milestone, Vivotek, Sony, Toshiba, Canon and many more. Please visit www.mobideos.com/devices.html for full list of devices.

MobileCamViewer has been on the market for over two years and works on wireless networks from carriers across the globe. Passed on major carriers such as AT&T, Sprint/Nextel, Verizon Wireless, Telstra and Orange.
